

Nurses Mentoring Nurses: Success Stories and Train Wrecks

TAU BETA CHAPTER OF SIGMA THETA TAU INTERNATIONAL

Annual Conference October 17, 2008

**CALL FOR POSTER
ABSTRACTS**

The purpose of this program is to promote the mentoring role in nursing professionals. Mentoring is a process of developing a relationship that can be beneficial to both parties. Mentors play a critical role in nursing recruitment and retention. Mentoring is something to give and receive over the span of our life-time and our professional careers.

Focus #1: Educational poster providing information about evidence based best practice used in health care environments that support a strong culture of mentorship.

Abstracts should be no more than one page and contain Title, Author or Authors' and contact information, Learning objectives, Content, and APA formatted references.

Focus #2: Nursing research completed or in progress.

Abstracts should be no more than one page and contain Title, Author or Authors' and contact information, Purpose, Theoretical Framework, Design, Instrument, Population, Procedure, Conclusions and recommendations, and significance to the nursing profession.

Deadline for abstract submission is **SEPTEMBER 15, 2008.**

Submit abstract to:

Nancy Rubino, EdD, RNC
